

SCUOLA DI ALTA FORMAZIONE
PhD Program in Medical Sciences and Biotechnology

MINIWORKSHOP ON
“BIOTECHNOLOGY FOR DERMATOLOGY”

THURSDAY 9th JULY, 2015

Main Hall, Palazzo Bellini (Via Paolo Solaroli 17)

13.50 – *INTRODUCTION – PRESENTATION OF THE SPEAKERS*

Prof. Ciro Isidoro

14.00-14.15- *Excellence at the Research and Studies Center on the Integument (CERT) of Besançon University Hospital (EQUIPMENTS AND ACTIVITIES)*

14.15-14.40 *-Expertise on Cutaneous Engineering: from cellular models to clinical applications*

Dr Gwenaël ROLIN, PhD, Clinical Research Engineer

Clinical Investigation Center, INSERM UMR1098, FED4234 IBCT, University of Franche-Comté, Besançon, France

14.40-15.00- *Use of tissues properties in “optical biopsy” field: a new non-invasive way of exploration*

15.00 - 15.20- *How biometrology and new imaging technics can complete a clinical consultation: example in dermatology practice*

Thomas LIHOREAU *Ingénieur hospitalier*

Research and Studies Center on the Integument (CERT), Department of Dermatology, Clinical Investigation Center (CIC INSERM 1431), Besançon University Hospital; INSERM UMR1098, FED4234 IBCT, University of Franche-Comté, Besançon, France

15.20-15.30 - **GENERAL DISCUSSION**
